

# Flisks Website Guide

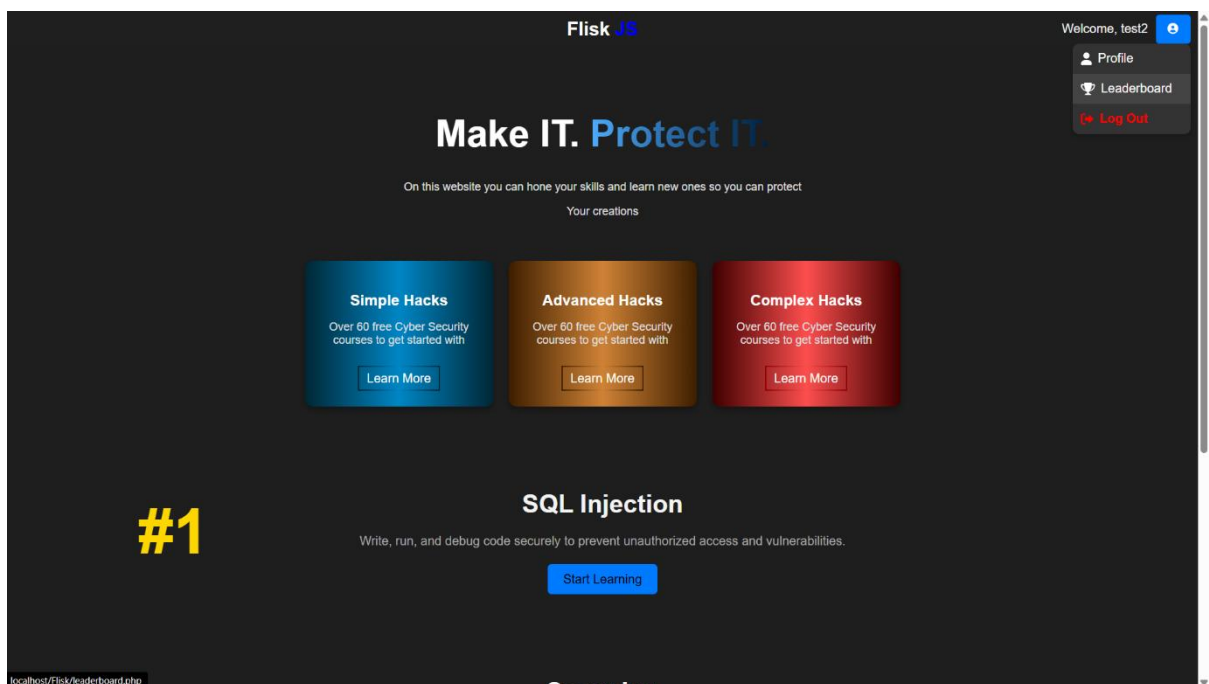

Dear Visitor, We warmly welcome you to our website. Our goal is to provide you with an engaging and seamless experience while browsing through our content. Whether you are here to explore our services, learn more about our offerings, or simply connect with us, we hope you find everything you need with ease.

Its not very hard to navigate this website, you be greeted with three big button once you load up the website, this button are knows as the difficulty and examination buttons, this are where you will be able to to your task and earn points from them

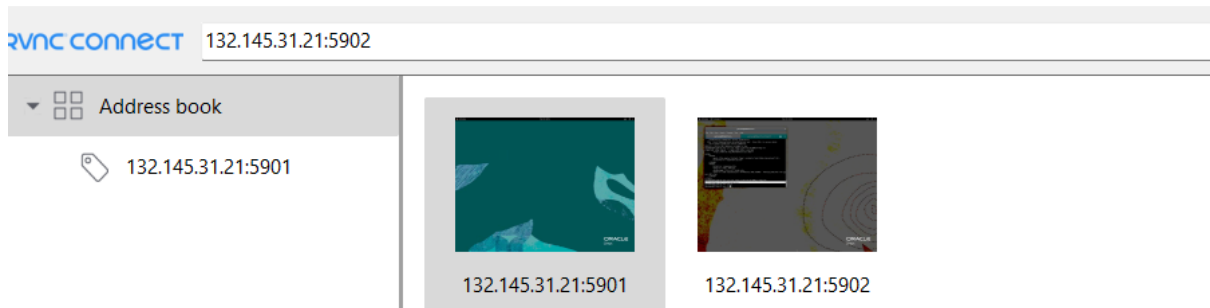

## Leaderboard

At the top you can find the login and register button this will help you login and register, once you have done this then you will be able to view the leaderboard and you will also be automatically entered inside of it

## VNC

Using VNC OR the Virtual machine to be able to capture the flag via the vm, you'll need to install a software called RealVNC which will allow you to connect to all the IP that was given to you in the task that required you to connect to the VM via IP address, once you have installed this software open it, and you'll be required to provide an IP address and on there paste both the IP address and the port given,

You should see something like this.
